Visakhapatnam, Andhra Pradesh - 530016, India

Professional Summary

Full Stack Developer and Computer Science Engineering graduate with strong experience in backend develop ment, RESTful APIs, and scalable web applications. Skilled in Python, FastAPI, Node.js, and PostgreSQL with experience building secure authentication systems and data-driven platforms.

Skills

- **Programming Languages:** C, Python, Java, JavaScript
- **Backend Development:** Fast API, Node.js, Express.js, REST APIs
- **Frontend Development:** HTML, CSS, JavaScript, Tailwind CSS
- **Database:** PostgreSQL, SQLite
- **Tools & Technologies:** GitHub, VS Code, LLDB, PDB
- **Networking & Security:** DNS, HTTP, TCP/IP, JWT Authentication
- **AI & APIs:** Vision APIs, AI Integration

Projects

Academic Exchange Platform | Full Stack Developer :

- Developed a full-stack marketplace platform for students to exchange academic resources.
- Built REST APIs using Node.js and Express.js with JWT authentication and role-based access control. • Designed PostgreSQL database schemas for users, listings, and transactions.
- Implemented advanced search, wishlist functionality, and listing management features.
- Built a real-time chat system using Socket.io for user communication.
- Developed a responsive user interface using HTML, CSS, and JavaScript.
- Implemented secure image upload functionality using Multer.

VaidyaDrishti AI – AI Prescription Scanner | Full Stack / AI Developer :

- Built an AI-powered prescription scanning platform to extract medications and patient details from handwritten and printed prescriptions.
- Integrated Vision APIs with Llama models for AI-based prescription understanding and structured data extraction.
- Implemented image upload, drag-and-drop, and mobile camera capture for scanning prescriptions directly from user devices.
- Designed a structured extraction pipeline to identify medicine name, dosage, frequency, duration, quantity, and instructions.
- Implemented features including medication schedule generation and multilingual prescription summaries.
- Enabled WhatsApp sharing and PDF export to distribute prescription reports.

ExposeChain | Full Stack / Backend Engineer :

- Developed an AI-powered threat intelligence platform to analyze domains and IP addresses for cyberse curity risks.
- Implemented DNS analysis, WHOIS lookup, IP geolocation, and SSL/TLS certificate inspection.
- Built scalable backend APIs using FastAPI with asynchronous scanning.
- Implemented an AI-based risk scoring system to detect and evaluate threats.
- Integrated PostgreSQL database to store scan results and maintain scan history.
- Implemented SSRF protection and API rate limiting to strengthen API security.

CERTIFICATIONS

- **AI for Vizag Buildathon 2026 – Certificate of Participation**
  FluentGrid | February 2026
  Participated in a 24-hour AI buildathon, collaborating to design and develop AI-driven solutions in a fast-paced environment.

EDUCATION

- **Avanthi Institute Of Engineering and Technology** *2021 - 2025*
  Bachelor Of Technology In Computer Science And Engineering Visakhapatnam, India
  ◦ CGPA: 7.69 / 10
- **Sri Chaitanya Junior College** *2019 - 2021*
  Board of Intermediate Education, Andhra Pradesh - (BIEAP) Visakhapatnam, India
  ◦ Percentage: 68%
- **Haragopal High School** *2018 - 2019*
  Board Of Secondary Education, Andhra Pradesh - (BSEAP) Visakhapatnam, India
  ◦ CGPA: 8.9 / 10

INTERESTS

- Coding & Journaling
- Endurance Sports
- Exploring Contemporary Media & Learning Resources
- Engaging With Informative Content
- Participating In Leisure Activities

DECLARATION

"I Declare That The Above Information Is Accurate To My Knowledge And Belief." **- Pallam Vamsi.**
